1. What issue or event does the cartoon depict?
2. What is the cartoon's message? Does the cartoon clearly convey the desired message? Why or why not?
3. Who is the man in the cartoon stating "prosperity is just around the corner?" (Hint: he is the namesake of a high school in Kanawha County.)

Think Critically: Do you believe that Democrats, such as Homer Holt, were able to benefit from the popularity of President Roosevelt? If so, how? How do political cartoons persuade and influence citizens?
